Transportation Research Part E 38 (2002) III–V

TRANSPORTATION RESEARCH PART E

www.elsevier.com/locate/tre

LIST OF CONTENTS

Number 1

M.G. Karlaftis and **P. McCarthy** 1 Cost structures of public transit systems: a panel data analysis

K. Obeng and **R. Sakano** 19 Total factor productivity decomposition, input price inefficiencies, and public transit systems

C.R. Carter and **M.M. Jennings** 37 Social responsibility and supply chain relationships

M.A. Haughton 53 Route reoptimization's impact on delivery efficiency

M.W. Babcock and **X. Lu** 65 Forecasting inland waterway grain traffic

Number 2

Y. Dong and **K. Xu** 75 A supply chain model of vendor managed inventory

T.F. Golob and **A.C. Regan** 97 The perceived usefulness of different sources of traffic information to trucking operations

G.D. Taylor, F. Broadstreet, T.S. Meinert and **J.S. Usher** 117 An analysis of intermodal ramp selection methods

Y. Suzuki 135 An empirical analysis of the optimal overbooking policies for US major airlines

Numbers 3–4

S.V. Gudmundsson and **T.H. Oum** 151 Globalized air transport services: policy and economic issues

D. Gillen, R. Harris and **T.H. Oum** 155 Measuring the economic effects of bilateral liberalization air transport

A. Zhang and **Y. Zhang** 175 A model of air cargo liberalization: passenger vs. all-cargo carriers

J.A. Clougherty 193 Domestic airline concentration: a positive strategic trade analysis

S.V. Gudmundsson and **H.L. van Kranenburg** 205 New airline entry rates in deregulated air transport markets

K. Deschinkel, J.-L. Farges and **D. Delahaye** 221 Optimizing and assigning price levels for air traffic management

M.G. Lijesen, P. Rietveld and **P. Nijkamp** 239 How do carriers price connecting flights? Evidence from intercontinental flights from Europe

W.M. Swan 253 Airline demand distributions: passenger revenue management and spill

C.-L. Wu and **R.E. Caves** 265 Modelling of aircraft rotation in a multiple airport environment

Number 5

A. Nagurney, J. Dong and **D. Zhang** 281 A supply chain network equilibrium model

J.H. Bookbinder and **J.K. Higginson** 305 Probabilistic modeling of freight consolidation by private carriage

G. Maier, E.M. Bergman and **P. Lehner** 319 Modelling preferences and stability among transport alternatives

Y. Suzuki 335 A heuristic method for effectively using frequent flyer miles for stochastic business trips

J.M. Dargay 351 Determinants of car ownership in rural and urban areas: a pseudo-panel analysis

N. Shinghal and **T. Fowkes** 367 Freight mode choice and adaptive stated preferences

R. Danielis and **E. Marcucci** 379 Bottleneck road congestion pricing with a competing railroad service

Number 6

E. Rabinovich and **P.T. Evers**	389	Enterprise-wide adoption patterns of inventory management practices and information systems
T.H. Ali, S. Radhakrishnan, S. Pulat and **N.C. Gaddipati**	405	Relay network design in freight transportation systems
S.T. Choong, M.H. Cole and **E. Kutanoglu**	423	Empty container management for intermodal transportation networks
K.H. Lai, E.W.T. Ngai and **T.C.E. Cheng**	439	Measures for evaluating supply chain performance in transport logistics
T.-L. Hu, J.-B. Sheu and **K.-H. Huang**	457	A reverse logistics cost minimization model for the treatment of hazardous wastes
